

Creative and Cosmetic Pre-Restorative and Pre-Prosthetic Adult Orthodontics

General Practitioners bring your Orthodontist for a rare collaborative learning opportunity not to be missed!

Dr. Willy Dayan has concentrated his practice on the challenges of adult orthodontics, with special attention to details of occlusion and rehabilitative dentistry. He received both his DDS (1986) and his Diploma in Orthodontics (1991) from the University of Toronto. Dr. Dayan lectures internationally, has studied at the prestigious Pankey Institute for Advanced Dental Education, and is a registered speaker and Elite provider for Invisalign.

Friday, November 12, 2010

(14 total attendees)

Tuition is \$1200 for each 2 Dr Team
\$300 Deposit required to reserve your place
Breakfast and lunch provided

We are excited to host Dr. Willy Dayan, international speaker, teacher, and Invisalign Expert in this unique one-day event!

The goal of Pre-Restorative orthodontics is to create a foundation where the restorative dentist can build a beautiful and functional smile without compromise. This presentation will clearly demonstrate those specialized tooth movements that can be planned into a cosmetic orthodontic treatment plan in order to make the final experience more pleasurable for the restorative dentist, orthodontist and ultimately for the patient. Through the use of clinical slides, and cases treated in a private practice, the presentation will include the following, and more!

- Restoring worn teeth without further reduction of tooth height.
- Alignment of Gingival and Bone Anatomy
- Eliminating the Dark Triangular Spaces
- Increasing Maxillary Tooth Exposure on Smile
- Rehabilitating the Collapsed Bite
- Using Implants and Temporary Anchorage Devices for orthodontic anchorage
- Invisalign, Lingual Orthodontics, Clear Braces
- Creative Thinking
- Communicating “The Plan”
